

**Livingston County Schools
Amy Ramage, Director of Pupil Personnel
127 East Adair Street
Smithland, KY 42081**

July 14, 2020

Dear Parents/Guardians and School District Employees:

Each of the four Livingston County Schools will be inspected for pests on a routine basis throughout the 2020-2021 school year. Treatments will follow on an as needed basis and in compliance with state regulations. The inspections/treatment of the cafeteria will be on or near the fourth work day of each month by Del Brantley's Pest Control of Salem.

For pesticide applications made when children are present, the school authority shall provide the notification to persons listed on the registry at least one (1) hour prior to the making of the application. Pesticides may be applied without notification indoors and to outside areas when children are not present.

For more information, please contact Del Brantley at 270-988-2422 or Amy Ramage at 270-928-2111.

**Sincerely,
Amy Ramage
